Car Break-Ins on the Rise

While many crimes in our area have been decreasing, LAPD reports that Burglaries From Motor Vehicles (BFMVs) have been increasing. BFMVs in gated communities have occurred more often in the summer months when idle kids are out of school.

Here are some tips to prevent you from being a victim:

- Lock your car doors, even in your driveway.
- Do not leave anything that could be a target for thieves in your car. Even if it's an empty bag you could still end up with a window smashed.
- Thieves like electronics like iPods, MP3 players, GPS devices, cell phones, laptops, etc. They do not care that your iPhone will cost \$600 to replace even if they only get \$20 for it.
- GPS holders on your windshield, or a wire running from your lighter to under your seat are big clues to car burglars.
- Do not hide your wallet or purse under your seat when you go to the gym. A burglar will guess you will be gone at least a half-hour if you are walking towards the gym in workout clothes.
- If you put a package in your car at the mall or town center, drive away to another area. You don't want somebody smashing your window and opening the trunk to take your purchase.
- Don't put all your valuables in your trunk if at the trailhead to any of our hiking trails. A thief might figure that you are going to be gone for a while if you hike down the hill with your dog and your backpack.
- Report suspicious characters in the parking lot to management or security at the mall.
